

ADVANCED CONTAINMENT DESIGN AND CONSTRUCTION

Nov 10, 2010
8:00AM-5:00PM

1-Day IICRC Approved Continuing Education Credit Training Course

Attendees will qualify for 1 IICRC approved continuing education credit. This hands-on course will cover topics such as board-ups, material and adhesive selection and application, preliminary surface documentation and protection, airlocks, containment panel fabrication, floating containments, box-outs and lids, airflow management and portable contents decontamination hoods. A must to attend for those interested in eliminating surface damages caused by containment installations or for those who would like to dramatically improve containment appearance and stability on remediation and restoration projects. Course includes a hands-on break-out session which is designed to familiarize students with the tools and materials necessary for advanced containment construction. Attendees will qualify for 1 IICRC CEC, will receive a course manual, and a certificate of completion.

Instructor: Matthew Sanders

Matthew now has over 13 years experience in the restoration industry. His field experience includes advanced containment construction, mold sewage remediation, contents inventory, cleaning storage, advanced structural drying, airflow management, visual inspection, consultation services for numerous insurance providers, contractors and law firms. His high standards, precise organization skills and innovative approach have literally "set the pace" in the Southern California remediation industry. Matthew is well known for sharing his unique experience and knowledge and for helping other remediation contractors in need. In addition to his vast field experience he is active in the restoration community, has received advanced training from the most respected organizations in the industry. Matthew is currently the President of the Carpet and Fabricare Institute, a regional non-profit trade association for professionals in the Inspection, Cleaning, Remediation and Restoration Association. CFI is a member of the Connections Convention and Trade Show and a shareholder of the IICRC.
